2013 CHPSW Research Day

The 2013 CHPSW Research Day was a great success thanks to the tremendous participation from faculty and students from across the College. There were over 70 posters presented representing collaborations among graduate students and faculty from CHPSW. Importantly, over a dozen faculty participated as members of judging teams. Judges included:

Kesa Bond (HIM), Lois Butcher (K), Marsha Crawford (SW), Bill Egan (PT), Ruth Farber (RS), Anne Galgon (PT), Margo Greicar (K), Jane Kurz (N), Rich Lauer (PT), Jamie Mansell (K), Deb Nelson (PH), Tom Rooney (K), Mike Sachs (K), Geoff Wright (PT)

This year included 2 faculty oral presentations. We would like to thank Dr. Geoff Wright and Dr. Jay Fagan for presenting data from their CHPSW grant funded research projects. We would also like to acknowledge the Dean's Office for financial support for the event, the excellent facilities assistance from Sarah Gunion of Howard Gittis Student Center, the ever-helpful Maria Chaney for organizing the facilities and awards, and Stephanie Madura who helped with administration of the day’s activities.

A special thanks is also extended to the very committed and efficient members of the CHPSW Research Day Committee, which included Kesa Bond, Carol Hammer, Rich Lauer, Michael McIntosh, Deb Nelson, & Ryan Tierney.

Awards
There were 6 awards for Meritorious Posters and 2 Dean's Awards for Outstanding Posters. The first two posters in each session listed below received the Dean's Award followed by Meritorious Poster citation winners.

Session 1
Joanne Collins (Nur), Utilizing Effective Strategies to Sustain Decreased Blood Stream Infection in the ICU

Yuji Ma, Perceptions of challenges and adaptations among Chinese International students at Temple University

Melissa Maskery, Moffit, Russ, Tierney, (K), An Analysis of Non-Contact Injuries and Contraceptive Use In Collegiate Club Sports

Curtis Schwieterman, White (SW), Contributing factors and correlations among Asian and Pacific Islanders living with HIV/AIDS in Philadelphia
Session 2

Ji-Seok Kim, Lee, Brown, Park, (Kin), Effects of Flow-Mediated Shear Stress on Endothelial Microparticles Formation

Brandon Becker, Whitaker, (PH), The mental and physical health of Head Start staff in Pennsylvania

Keisuke Kawata, Lee, Kim, Park (Kin), Endurance exercise training without cognitive intervention is not sufficient to induce mitochondrial biogenesis in the mouse brain

Alex Dutton (SW), The Impact of Adolescent Community Violence Exposure on Educational, Economic, and Mental Health Outcomes for African-American Women
