DEPARTMENT OF EPIDEMIOLOGY AND BIOSTATISTICS

Tenure Track (Open Rank) Faculty Positions in Epidemiology

The Department of Epidemiology and Biostatistics (cph.temple.edu/epibio/home) within Temple University's College of Public Health seeks applicants for 2 tenure track faculty positions in Epidemiology to join a rapidly growing academic unit. Rank is open, although established researchers and cluster hires of senior faculty inclusive of junior colleagues are encouraged. Substantive area of expertise is open, but will ideally intersect with interests of existing faculty in the College. The successful candidate will either have a nationally recognized research program, demonstrated success securing extramural funding or a demonstrated ability to develop an independent research portfolio. Candidates must have an ability to develop interdisciplinary collaborations. Candidates must also demonstrate dedication to teaching and mentorship because the faculty will have teaching responsibilities primarily at the graduate level.

The Department of Epidemiology and Biostatistics has 12 full-time faculty members and funded research programs in the areas of obesity prevention, maternal and child health, violence prevention, global health, genetic epidemiology, applied biostatistics, and environmental health. The Department houses several graduate public health programs, including a Ph.D. in Epidemiology and M.P.H programs in Epidemiology, Applied Biostatistics, and Environmental Health as well as a M.S. program in Epidemiology and a M.S. in Clinical and Translational Medicine. The Department also contributes toward the College’s nationally recognized B.S. in Public Health. All its academic programs are accredited by the Council on Education in Public Health.

The College of Public Health, a constellation of 9 academic units of public health, health profession and social work disciplines, enrolls almost 5,000 students. The College has seen remarkable growth and organizational expansion in the shape and configuration of programs, research profile, increase in rankings, and collaboration with other academic units. In 2014-2015, the College ranked 2nd of the 17 colleges/schools at Temple in research expenditures. The College’s innovative research focuses on medical interventions, social, behavioral, and environmental inquiries, and basic science and is sponsored by NIH, NSF, and other major federal funders as well as foundations. Under the leadership of Dean Laura Siminoff, a public health social scientist continuously funded by NIH for 25 years, CPH is hiring 50 faculty to join the 160 faculty across its academic disciplines.
Temple University is an urban, research-intensive university located in Philadelphia, Pennsylvania. Temple is the 6th-largest provider of professional education in the country and includes Schools of Medicine, Pharmacy, Podiatry, and Dentistry in addition to research centers including the NCI-designated Fox Chase Cancer Center. Temple is located in historic and culturally-rich Philadelphia, the nation’s 5th largest city. The city was ranked 3rd by the New York Times as a world tourist destination.

Applicants must have a Ph.D., M.D./Ph.D., or M.D./M.P.H. Rank of academic appointment will depend upon the overall experience and funding history of the candidate. Salary, rank, and tenure status will be commensurate with credentials and experience. The College offers highly competitive start-up packages and salaries.

Interested applicants should send a letter of interest, curriculum vitae, 1-page research statement, and a statement of teaching philosophy to cphsearch@temple.edu. Applications will be held in confidence until campus visits are scheduled.

Review of applications will begin immediately and the appointment can begin as early as January 2016. For questions about the position, contact Department Chair Adam Davey at Adam.Davey@temple.edu.

*Temple University is an equal opportunity/affirmative action institution.*
*People of color, women, veterans, and persons with disabilities are encouraged to apply.*
