Every individual with special needs is entitled to a supportive community and the opportunity to lead a rich, fulfilling life. From children in need of foster care to adults with developmental challenges, everyone has the potential to overcome tremendous adversity, they only need a helping hand to open the door and show them the way.

Since 1978, Access Services has been this helping hand, empowering countless individuals and their families in Southeastern Pennsylvania through community-based specialized service. From Respite Services to In-Home Counseling and Therapeutic Foster Care we have made it our mission to provide those in need with companionship, resources and opportunities to grow as part of a community.

Access Services has been chosen as one of Philadelphia Business Journal’s 2013 "Best Places to Work"!

Our In-Home Supports Program provides services to individuals with developmental disabilities in their own homes. We offer practical help that can enhance the quality of life for the individual with disabilities and the well being of the entire family. We make efforts to empower the individual and help to strengthen the natural supports that surround them.

The In-Home Supports Staff’s responsibilities include, but are not limited to: work shifts as assigned by the Coordinator with the highest degree of dependability, maintain daily log and other documentation, complete yearly training requirements, provide personal care, teach basic daily living skills, commitment to individual rights and individuality of the person being served, and provide accurate and timely communication to Coordinator regarding the individual and family.

We are currently seeking individuals to work late afternoons/early evenings and flexible weekend hours averaging three to five hours per shift.

Requirements:

- Due to travel, access to a car, a current valid driver’s license and valid car insurance are required.
- One year direct care experience working with individuals with developmental disabilities.
