TEMPLE UNIVERSITY
College of Public Health

DEPARTMENT OF KINESIOLOGY
Instructional Faculty in Human Anatomy and Physiology

Temple University’s College of Public Health strives to solve health’s complexities for a better tomorrow. Our faculty prepare researchers, practitioners, and educators to collaborate across disciplines to understand community needs, create evidence-based solutions, and deliver effective, compassionate care. We invite applications for a non-tenure track faculty member to teach Human Anatomy and Physiology beginning January 2020.

Qualifications. We are seeking an enthusiastic, dedicated professional with a background in human anatomy and physiology to teach undergraduate anatomy and physiology courses, and coordinate anatomy and physiology laboratory experiences. The ideal candidate will have a strong record of teaching undergraduate anatomy and physiology courses and labs. In addition, a clinical background, lab coordination experience, and experience teaching synchronous and asynchronous online courses is highly desirable. Any specialty certifications will also be beneficial. Salary and benefits are competitive and commensurate with credentials and experience. Rank is open at the level of instructor, assistant, associate, or full professor dependent on qualifications. We value diversity and seek individuals committed to inclusive practices in education, research, and practice.

The Department. Kinesiology is respected for its undergraduate and graduate programs, research, and service to the University. The undergraduate program is comprised of degrees in exercise and sports science and kinesiology, both of which include required courses in anatomy and physiology. In addition, the Department is well known for its educational service to students across the university at large. This includes the delivery of lecture/lab-based courses in anatomy and physiology, which serve one of the largest number of students at the university, as well as very popular physical activity courses. Fourteen full-time faculty and approximately 60 adjunct faculty (primarily serving the physical activity courses) serve the Department. The College also assigns each year 20-25 teaching assistants to the Department to support its instructional mission, including in anatomy and physiology labs.

The College. Devoted to an interprofessional environment for academic programming and research, the College of Public Health, a CEPH-accredited school of public health, is a constellation of academic units of public health, social work and health profession disciplines, enrolling 4,300 students. The College’s research focuses on social, behavioral, and environmental inquiries, medical/health interventions, and basic science and is sponsored by the National Institutes of Health, National Science Foundation, Department of Defense, and other major funders. The College has recently launched a new Center focused on Community Engaged Research and Practice. We are harnessing the collective energies of our clinical disciplines through an emerging, innovative framework for interprofessional education.

The University. Temple is an urban, research-intensive Carnegie R1 university located in historic and culturally rich Philadelphia, the nation’s 6th largest city. The city was ranked 3rd by the New York Times as a world tourist destination. The National Science Foundation ranks Temple among the top 100 universities in the country for research expenditures. Temple is the 6th largest provider of professional education in the nation and includes Schools of Medicine, Pharmacy, Podiatry, Law, and Dentistry and research centers including CPH’s Center for Obesity Research and Education.

To Apply. Applicants should email their curriculum vitae, a statement of teaching experience, and names of at least three references to knssrch@temple.edu. For questions about the position, please contact Search Committee Chair, Kyle Harris, at kyle.harris@temple.edu. Review of applications will begin immediately and will continue until the position is filled.

Temple University is an equal opportunity, equal access affirmative action employer committed to achieving a diverse community.
