

What is a PT Residency?

As defined by the APTA, a Residency is “A **planned program** of post-professional clinical and didactic education that is designed to **advance** significantly the physical therapist's preparation as a provider of patient care services in a defined area of clinical practice.”

When Can I Start?

Resident cohorts are accepted for bi-annual starting dates of **January and September!**

Apply now to ensure your spot in the next cohort—space is limited to ensure individualized attention and feedback!

Therapy Residency**

Orthopaedic Physical Therapy Residency

The Orthopaedic Physical Therapy Residency at Temple University is the first of its kind in the Philadelphia region!

The Orthopaedic Physical Therapy Residency at Temple University is unique in that practicing clinicians remain at their own site of practice while advancing their evidence based orthopaedic skills and knowledge.

Hands-on collaborative learning during weekend courses!

Advantages of the Residency at Temple?

- ◆ **Expert faculty** with advanced orthopaedic credentials
- ◆ Small cohort size to provide **individualized** feedback and attention
- ◆ **No need to give up current job or move**
- ◆ Live-classroom technology to enhance on-line learning
- ◆ Structured **on-line** courses with hands-on training sessions
- ◆ Content helps student prepare for board specialization (OCS)
- ◆ Complete the program at your own pace!

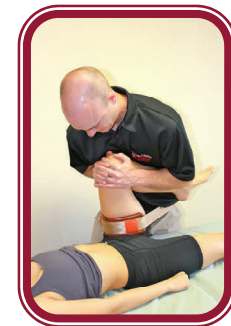

What makes up the Residency?

- Musculoskeletal Management Upper and Lower Quarter
 - Evidence based management of musculoskeletal disorders.
 - On-line discussion and lectures.
 - Weekend lab courses emphasizing manual skills and clinical decision making.
- Mentorship I and II:
 - Clinical mentorship occurs at the Resident's primary place of employment.
 - Online component with individual feedback and interaction with Residency faculty.
 - Enhances professional development and clinical decision making skills of the resident.

Prerequisites for the Residency?

- Clinical doctoral degree (DPT or transitional DPT)
- Working at least 20 hours/week in an outpatient orthopaedic PT clinic
- Access to a physical therapist with OCS designation who is willing to serve as a clinical mentor

Costs associated with the Residency?

The Orthopaedic Physical Therapy Residency offers a competitive cost with other residency programs. For the most up-to-date information on tuition rates please visit the [Residency Home Page](#). The Residency may qualify for tuition reimbursement, check with your employer for details.
