PRACTICE/CLINICAL EXPERIENCE

Behavioral Health Care Manager

Temple Health System

June 2020-May 2023

- Provide brief based behavioral health interventions to primary care patients with behavioral health and physical health comorbidities with the overall goal of improving patients' physical health management, psychological well-being, and overall functioning.
- Administer GAD-7, PHQ 2/9, biopsychosocial assessments, treatment planning, and discharge summaries to develop individualized patient assessment, planning, and treatment.
- Work collaboratively with primary care providers and psychiatry to provide collaborative integrated health treatment to improve overall patient outcomes.
- Engage in program development through collating behavioral health resources, fostering collaborative relationships with behavioral health stakeholders, assisting with primary care provider and nurse navigator behavioral health training, and provide internal behavioral health consultation to population health medical and non-medical staff.

Clinical Therapist (Part-Time)

Betterhelp

May 2020-September 2022

- Provided online mental health therapy services using evidence-based modalities to adults with general mental health challenges to increase clients' functioning and improve overall well-being.
- Worked collaboratively with clients to complete intake assessments, create individualized treatment goals, and assess for successful discharge and continuity of care.
- Developed discharge criteria and refer/link patients to community resources during or after services to meet patients' biopsychosocial spiritual needs.

Clinical Care Manager

Community Behavioral Health

March 2019-June 2020

- Conducted utilization review activities, population management, cross system consultation, and behavioral health agency management through planning and implementing clinical care management and monitoring program services.
- Monitored evidence-based practices and state regulations to ensure patients/clients receive quality medically necessary behavioral health services.
- Consulted with physician and psychologist advisors through monitoring and evaluating programs to ensure effective treatment is authorized.
- Researched and implement state regulatory requirements while evaluating client's treatment with provider family-based teams.

Outpatient Therapist

Oaks Integrated Care

May 2017-March 2019

- Planned for and facilitated strengths based individual & family general mental health therapy for children and adolescents, researched and developed treatment modalities tailored to client's needs.
- Implemented individualized biopsychosocial assessments to monitor initial case conceptualizations and monitored ongoing clinical case conceptualization.
- Administered and implemented measurement tools such as the Columbia Suicide Severity Risk Scale & Daily Living Activity-20 in evaluating client's progress across life domains and evaluate client's progress across the course of treatment.
- Developed discharge summaries, planning, and linking/referring consumers for additional community support for continuity of care.

Mental Health Practitioner

Oaks Integrated Care

October 2016-May 2017

- Planned, developed, and implemented short-term individual, group, and family mental health counseling to address, prevent and educate students and families about contemporary issues that impede social, emotional, academic, and physical development.
- Researched treatment modalities to employ with students as through motivational interviewing, solutions focused, and task-centered approaches.
- Implemented services through referring and linking students and families to community resources to improve daily functioning across multiple settings such as through counseling services, after school activities, health/wellness services, and recreational programs.

-Planned, developed the curriculum for, and implemented psychoeducational groups supported through didactics and engaging activities for middle and high school students to promote academic, social, and behavioral achievements specific to each groups' needs, while monitoring and evaluating the curriculum's success before implementation and after delivery.

-Worked collaboratively with school personnel such as through guidance counselors, teachers, administrative staff, and intradepartmental team members through ensuring individualized educational plans, 504 plans, and classroom behavioral management techniques are implemented to students' needs.

-Served as a voluntary Achievement Mentor while holding weekly meetings with several assigned students to review, plan, modify, and inspire behavioral and academic progress and growth.

Trauma Therapist

Joseph J. Peters Institute

May 2016-September 2016

-Planned, developed, and implemented individualized outpatient Trauma Focused Cognitive Behavioral Therapy to child, adolescent, and adult clients.

-Implemented outpatient individual therapy and performed evaluations with male batterer clients, clients with sex offenses, and juvenile offender clients with the overall goal of monitoring success and reducing criminal recidivism while improving interpersonal functioning.

-Developed and implemented treatment planning and intervention to improve child and adolescent outcomes

-Utilized a strengths-based approach with all participants to elicit change and growth outcomes.

-Communicated with multiple stakeholders such as through the Defenders Association, Philadelphia County Probation, and Community Umbrella Agencies to foster an integrated client support network.

Criminal Justice Adjunct Faculty (Part-Time)

Strayer University

October 2014-December 2015

-Instructed accredited criminal justice classes through on-ground instruction.

-Efficiently graded tests, quizzes, discussions, and written assignments in a timely manner.

-Inspired, motivated, and encouraged on-ground classroom and external learning engagement.

-Utilized andragogy through incorporating multiple methods of educational facilitation while striving for student retention and overall academic and career success.

Forensic Case Manager

Public Health Management Corporation

January 2014-August 2014

- Developed, planned, and implemented individualized support case management services to drug and alcohol clients tailored to their needs. Performed research of Philadelphia case management services (i.e., public assistance, social security, housing) specific to clients' needs.
- Evaluated individual retention rates of substance abuse treatment process while advocating for overall sobriety.
- Reduced recidivism through creating responsible, self-sufficient participants
- Monitored clients' success during and after services to maintain sobriety well after the treatment process.

Enforcement Officer

Chester County Adult Probation

March 2013-December 2013

- Monitored over 150 caseloads in Collections Court in a timely and orderly manner
- Provided counseling to defendants while promoting positive social and legal outcomes
- Regularly met with defendants to discuss life skills, employment statuses, & public assistance.
- Testified in Criminal Collections Court regarding offenders' financial delinquency
- Processed orders, agreements, and other court related documents.
