Selected Evaluation Projects and Research

Senior Researcher, Policy & Research Group

- *Investing in Innovation (i3) Challenger Center for Space Science Education.* Cluster RCT evaluation of a classroom simulation activity which aims to improve student achievement in math and science through hands-on learning. Funded by the U.S. Department of Education.
- *Investing in Innovation (i3) Baboquivari Unified School District.* Evaluation of a college-readiness program which aims to improve high school completion rates and increase college readiness in the Baboquivari Unified School District in the Tohono O'odham Nation in southern Arizona. Funded by the U.S. Department of Education.
- *Investing in Innovation (i3) Center for Supportive Schools.* Individual-level RCT evaluation of a school-based, high school transition and cross-age peer mentoring program for 9th grade students designed to support academic and other school-related outcomes. Funded by the U.S. Department of Education.

- *Louisiana Health Assistance Program (LA HAP)*. Qualitative study which explores the relationship between health insurance status and the health and health-related behaviors of persons living with HIV in rural and urban regions in Louisiana. Funded by the Louisiana Office of Public Health.
- *APHA Public Health Accreditation Project*. Mixed-methods evaluation of capacity building sub-awards to leaders of state and regional public health associations (APHA Affiliates) that support strategic partnerships with state, local, tribal and territorial health departments that advance national accreditation efforts. Funded by the Centers for Disease Control and Prevention.
- *Plan4Health, American Planning Association (APA) and American Public Health Association (APHA)*. This project supports local coalitions in efforts to reduce chronic disease in communities across the U.S. and address population health goals by promoting the inclusion on health in non-traditional sectors – specifically, urban and regional planning. Funded by the Centers for Disease Control and Prevention.
- *Care and Prevention in the United States Demonstration Project (CAPUS)*. Mixed methods implementation and impact evaluations assess the reach and impact of CAPUS strategies which aim to reduce HIV inequity and health disparities among racial and ethnic minorities.
- *Special Projects of National Significance (SPNS)*. Multiple methods evaluation of linkages within systems that serve hard-to-reach populations who are at high risk of HIV infection and transmission: the correctional system and the health care system. Funded by the U.S. Department of Health and Human Services, Health Resources and Services Administration (HRSA).
- *Needs Assessment of Persons Living with HIV/AIDS*. Descriptive account of the needs of Louisiana residents living with HIV. Funded by the Louisiana Office of Public Health.

Doctoral student, Tulane University

- *Evaluation of Chicago Urban Debate League*. Quantitative longitudinal evaluation of the academic and social-emotional effects of participating in Urban Debate Leagues in Chicago Public Schools.
- *Evaluation of APEX Youth Center, New Orleans, LA*. Qualitative evaluation of the effects of participating in an after-school youth development program for young men in Central City, New Orleans.

Statistical Analysis

- Statistical analysis programs: STATA, SPSS, SAS, NVIVO, Atlas TI, GIS
- Statistical analysis techniques: regression analysis (cross-sectional and longitudinal data); structural equation modeling; grounded theory analysis (qualitative data); mediation analysis

Conference Presentations

- Association of Schools and Programs of Public Health (ASPPH) annual meeting, Washington, D.C. 2020
 Adapting a maternal and child health curriculum for undergraduate public health students [Presentation canceled due to COVID-19]
